

How to Default the Upload and Download File path of SAP Data? Everyone downloads Data from SAP :)

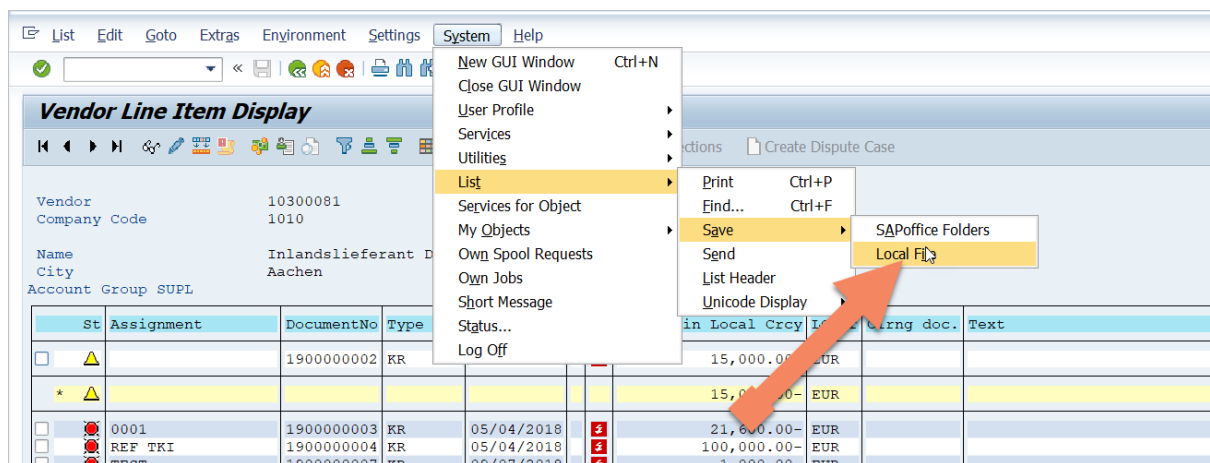

01011,395

Introduction

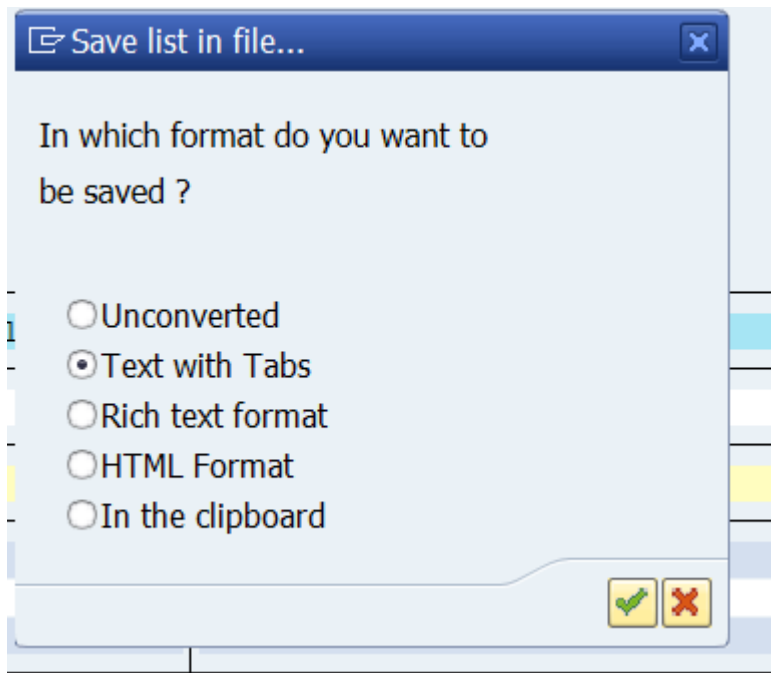

There are a lot of users who Logs into SAP to download data in Excel or some Format. SAP By default has a file path pointing to SAP Gui which we change to desired folder. By Following this path you can change that Default File Location and it will Save you some Clicks while Uploading and Downloading Data from and Into SAP.

Solution

Current Scenario I am downloading Data from FBL1N Tcode

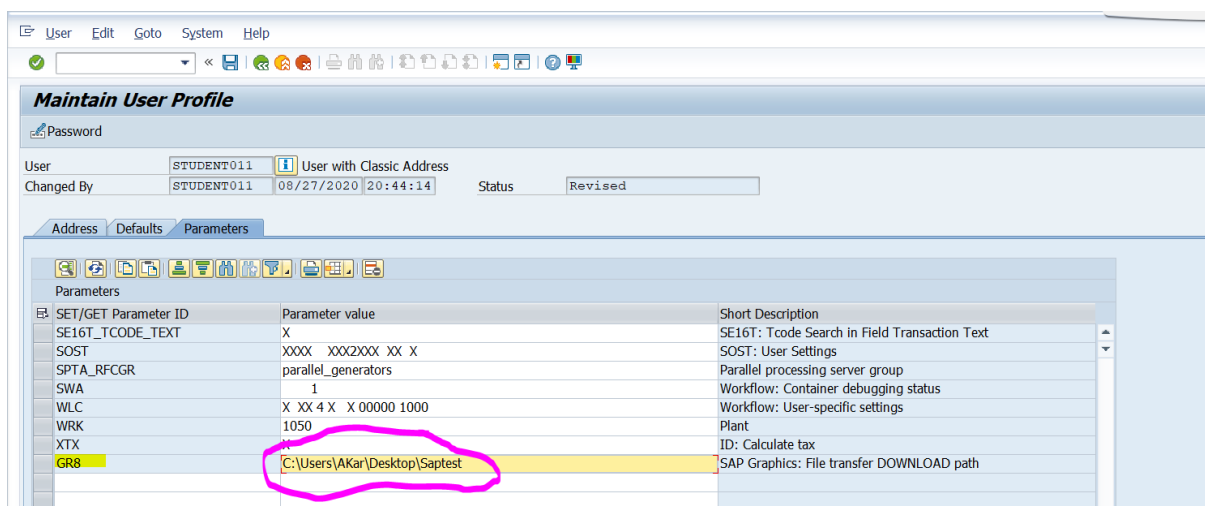

Select the Type

Below is the Default Path System Proposes

Now we go to SU3 Tcode and maintain Parameter id GR8 with File Location you want

Wala now it has changed after Saving the File Path

Vendor 10300081
Company Code 1010
Name Inlandslieferant DE (Ariba Sourcing)
City Aachen
Account Group SUPL

St	Assignment	Doc	Vendor Line Item Display	ext
		19	Directory C:\Users\AKar\Desktop\Saptest\	
*			File Name .txt	
			Encoding	
	0001	19		
	REF TKI	19		
	TEST	19		
			Generate Replace Extend	
*				
			122,600.00-	EUR
**	Account 10300081		137,600.00-	EUR

For Upload File Location go to SU3 Tcode and maintain Parameter id GR9 with File Location you want

User Edit Goto System Help

Maintain User Profile

Password

User STUDENT011 User with Classic Address
